Document ingestion

A reliable ingestion pipeline keeps source identity, file name, document type, and

Fixed size chunks

Fixed windows provide a deterministic baseline. A small overlap protects sentence

Structure aware chunks

Headings, pages, functions, and classes are natural boundaries. Large sections m

Embedding batches

Chunks are embedded in batches. Model name and vector dimension belong to th

Atomic persistence

The complete index is written to a temporary file and renamed only after success.

Search evaluation

Cosine similarity is sufficient for a small local corpus. Side by side results reveal w
